

PSEF THE PUBLIC SERVICES' EMPLOYERS' FORUM

The Public Services Employers' Forum (PSEF) gathers associations representing providers and employers of public services and services of general (economic) interest - SG(E)I.

Public services and SG(E)Is are a cornerstone of the EU Social Model and of democratic societies; they have a central role to play in ensuring the citizens' quality of life, contributing to informed citizenship, supporting the development of European businesses and to boosting the growth and competitiveness of the EU.

The quality and access to essential services such as education, energy, healthcare, public service media, public transport and services provided by local and regional governments is instrumental to the realisation of our common objectives, and we, PSEF members, are committed to doing our part in balancing the economic and social dimensions of the EU.
